- 3 Replaceable bottom weatherseal in a rust-proof aluminum retainer helps prevent elements from entering garage.
- 4 Tongue-and-groove/shiplap section joints help seal out wind, rain and snow.
- 5 Galvanized steel hinges are durable, reliable and secure.
- 6 Nylon rollers are smooth and quiet.
- 7 Inside/outside step plates and grip handles make doors easy and safe to manually operate.

STEP PLATE/ LIFT HANDLE

Color-matched exterior step plate/lift handles are durable, attractive and allow for safe opening and closing of your door.

RUST-PREVENTION SYSTEM

Steel skins are protected through a tough, layered coating system, including a hot-dipped galvanized layer, a protective metal oxide pretreatment, and a baked-on primer and top coat.
